

The Examiner's request for an IDS from applicant is puzzling since applicants' records show that an IDS and 1449 was submitted and received by the Patent Office at the same time the present application was filed, as shown by a copy of the post card receipt, enclosed as Attachment 1. Because additional cited art has come to applicants' attention through searches in corresponding foreign jurisdictions, applicants will take this opportunity to provide a complete and updated IDS and 1449 form.

Applicant respectfully requests consideration of the art cited by applicant, allowance of the pending claims and passage of the application to issue.

Respectfully submitted,

John C. Demeter  
Attorney for Applicants
